

It's Waiting For You...

**How To Get
to 100K
In Only 1 Year**

An InfoBusUni Production

Welcome!

Hello and welcome to a brief sampling from "**Ling's Notes for 100K in One Year Blueprint!!**"

In case you're wondering, I'm the Ling. Barbara Ling. Not to be confused with Bond. James Bond.

Nope, I'm Barb Ling ... and I watched Sean Mize now for years!

It is an honor and a privilege for me to partner with Dennis Becker as the Keepers of the Evergreen Vault....

And we think you're going to ADORE this latest (right now, you're reading a free report that gives you an insight into what you'll learn).

In a nutshell, Sean has personally earned over 6 figures, year after year....

How did he do it?

He followed a blueprint.

... which quite frankly, contains *gold*.

This is evergreen stuff, dear reader....

It is proven goodness that is *timeless* and you can start putting it to practice today!

Thing is...

Sean wrote this back in 2016 or so.....

... and if you're not a seasoned marketer, you might miss some of the references you'll encounter!

That's where Ling's Notes come in....

I've personally gone through every page to pull out the most timely and relevant content for you.

This is A+, “other-people-charge-\$497-for-such-things” knowledge.

So here's what I suggest to you:

Open a text file.

Start to read the PDF. If you get confused, feel free to refer back here.

Take notes!

His original pdf covers:

- Why a Blueprint is Critical for Internet Marketing Success
- Why You Should Create a 1-Year Blueprint for Your Business

Welcome!

- Where to Focus Your Blueprint
- Choosing the Foundational Goals for Your Blueprint
- Follow a Proven Model Within Your Blueprint
- The 10k a Month Blueprint
- Planning Out Each Track in Your Blueprint
- Building Out the Next Track in Your Blueprint
- Blueprint for an Ultra-Productive Day
- A Blueprint for Getting Subscribers
- The Daily Blueprint Checklist
- More Blueprint Examples
- Implementing Your Blueprint

So right then and there you realize:

Sean took a MASSIVE amount of action taking!

He knew his goals and he gave everything he had towards making them come true.

Your takeaway?

Duplicate that effort.....

And kick fate in the right direction today. 😊

Turn the page and let's begin with:

Why a Blueprint is Critical for Internet Marketing Success

On the very first page you'll be pulled in.

Sean begins by spelling out just WHY a blueprint is so important for planning out your business.

His example is PERFECT: building a house! To wit:

*“...You're going to build a house, and the blueprint shows where the foundation is. It shows where the front door is. It shows where the back door is. It shows where the windows are. It shows where the roof is. **When your construction crew gets onto your property each day, they pull out the blueprint and take a look at the progress so far.** They see that the foundation has been laid and the walls are up. They compare that to the blueprint, and know that today they're going to put windows in.*

So they work on windows, and tomorrow when they come in they do the same thing. They look at the property. They see there's a foundation. They see the walls. Now they see the windows. Then they look at the blueprint and realize, they need

Why a Blueprint is Critical for Internet Marketing Success

*doors! Doors are next. **Maybe we don't finish the doors today, so tomorrow we come back and we look at the property: we see a foundation, we see walls, we see windows, and we see half of the doors. We look at our blueprint and we realize we need all of the doors. Today, we finish the doors!***

*We could continue to go on with this, but I think that you get the idea. The blueprint, when it's compared with your current progress, **will always tell you what the next step is....**”*

He then explains what so many people always do....

Because they don't have their next step spelled out, they will:

- Read their email
- Watch videos on YouTube

And in the process, get totally confused.

See, that's the big part of this blueprint.... And why it's so important that you read it all!

It will help you get RID of any confusion because you're going to ALWAYS know what your next steps are.

In other words, no more analysis/paralysis and wondering what your next step should be!

In a nutshell, that's what a blueprint IS.

But what KIND of blueprint is necessary for your business?

Product Creation?

A 1 month blueprint?

“How To Get To 100K in 1 Year”
Why You Should Create a 1-Year Blueprint for Your Business

Sean moves to:

**Why You Should Create a 1-Year Blueprint
for Your Business**

A one year blueprint?

Why one year, I hear you ask?

Sean rather brilliant picks 1 year because of how many people talk about 24 hour/48 hour business building....

And that is a wee bit...

INSANE.

To really make money online... you need a methodical way to build up to it!

Ask yourself:

How long have YOU been trying to pull YOUR business together?

1 year?

Why You Should Create a 1-Year Blueprint for Your Business

2 years?

5 years?

But now think.

Sean asks you, what if a YEAR ago, you actually had a bona-fide 1 year blueprint that would have gotten you to 10K/month?

That’s hugely important, so let me highlight it in great big huge neon blue letters:

Sean asks you, what if a YEAR ago, you actually had a bona-fide 1 year blueprint that would have gotten you to 10K/month?

Something powerful to think on, aye?

Sean next asks you, where would YOU be TODAY....

... if you had this 1 year blueprint last year?

Ask yourself: (quick turn the page!)

“How To Get To 100K in 1 Year”

How would it feel to have a step by step blueprint of what it will take to get to \$100k...

How would it feel to have a step by step blueprint of what it will take to get to \$100k...

And a blueprint for what to work on every day, for one year...

... to get to that \$100k in your own personal revenue?

How would it feel to **know every day when you wake**

up... EXACTLY what you need to work on that day to get to \$100k in income?

If that would feel good, you are going to love what we have for you today. . .
